

OBSIDIAN DICE

Magic item
Epic

An ordinary set of dice - or is it?

These dice are made from pure obsidian. High in cost, low in usability. Owning these dice may appear like a luxury, but throwing them may turn out a fatal mistake.

The Obsidian Dice can be used once to improve a single dice roll of any kind by an additional roll of the same kind of dice. Once used, the obsidian dice set shatters immediately into sharp pieces.

If you fail a *Constitution Saving Throw* against 5 + the result of your additional roll, you take 1d8 piercing damage.

Once used, the obsidian dice are destroyed and unrepairable. Only small shards of obsidian are left behind.
